

Reduce energy use in the workplace

Energy efficiency is a priority area for the EU, which funds a range of initiatives to reduce energy use and promote energy efficiency in the Eastern Partnership region.

There are simple measures that require little investment yet deliver big savings in reduced energy bills for business.

Some simple low cost tips

Make the most of **natural light** and turn off lights to **reduce lighting expenses by 10-40%**.

Paint walls white to brighten the workplace and reduce the need for lighting.

Use timers to switch off equipment when not in use and cut costs by **60%**.

Use rechargeable batteries instead of disposable ones.

Turn down the thermostat by one degree and **save 2% on heating**.

Service your boiler to reduce heating costs by up to **30%**.

Reduce costs on travel by holding virtual meetings whenever possible.

** Figures presented are averages and therefore stated energy savings will vary.*
